MUIIS: - Avishkar competition 2023

Category-I: - Humanities, languages and Fine arts- Preventative medicines.

Topic of research: - New Approach in Kruttam Varg.

Name of student: - Maheshwari Narayan Zori

College name: - PMT's Ayurved college, Shevgaon.

Abstract: - As we all know Ayurveda is made for the goodness and development of human being, Not only Human beings but also all Living organisms.

Here I selected Kruttam Varga for my research because it is easily available and easy to purchase for everyone from poor to rich, It is also useful from child to older person.

As kruttam varga Dravya's like Amla, Poha food made from rice, baked rice, sukta , Mixture of various pulses which are baked. This dravya's are easy to digest and tasty to taste buds.

In our ayurveda there is a concept known as 'Pathya Kalpana' That means there indications are given about what to eat when we are suffering from any disease condition and in that pathya Kalpana doctor's tell patient about eating light food, healthy food.

In many diseased doctor's tell patients that they need to take care of their digestive system as their system become synthetic because of illness and side effect or any kind of disease. In that condition it is not easy to follow the diet according to doctors. In this condition our new aspect in Kruttam Varga is useful.

As we are making pouches of our Kruttam Varga Dravya in unaquious and in very fine powder like structure by adding salt to taste and Dipanly Dravy's (Appetiser) like piper longum corom seeds, Black peppercorns, dried Bay leaf, Asofaetida to make them easy to digest.

And this all drugs and dravys's in fine powder and packed in small pouches or sachets given to our patient, who is an office worker, student, traveller who have less time for themselves or they have not all the food by their convenience. So in that case we can give them all this and ask them to take this diet by adding 'Hot water' in it and mix it well and take it

As this will give them healthy food, good nutrients as per their convenience.

By this way we can develop this process and concept for the soldier's fighting on borders, sports man and very weak persons who need nutrition very conveniently.

New approach in Kruttam Varg

Aim :- To define practical applicability of kruttam varg

Objectives: - To develop new process in using kruttam varg in our day-to-day life and finding out its benefits.

Hypothesis: - Preservative and preventive approach in kruttam varg.

In Ayurveda it is said that,

"मण्डपेयाविलेपीनामोदनस्य च लाघवम्॥

यथापूर्वं शिवस्तत्र मन्दो वातानुलोमनः।

तृङ्गलानिदोषशेषघ्नः पाचनो धातुसाम्यकत्॥

स्तोतोमार्दवकृत्स्वेदी सन्धुक्षयति चानलम्॥"

(अ.ह.सू. ६/२६-२७)

That means the Manda, Peya, vilepi and odan made from kruttam varg are easy to digest. As they are healthy to our body, they are easy to made available. They also help in improving our digestion.

They are easy to preserve when they are in anagveus form. There is no need to add preservative in it to store them. As their shelf life is also good.

As these are good in digestion and have our body making property. They can be taken regularly in some patients which are prohibited to eat heavy food and junk food. They are advised to take light and healthy diet. But if that people are working man and women and if they have their workplace as office and it is not easy to carry or made light food there.

For that kind of group people, we can made small pouches of food containing our kruttam varg and made them available food they want.

Kruttam varg includes Amla, Poha, food made from baked rice, sukta, Mixture of various pulses in various particles.

As we all knew it is easy to get hot water in travailing, offices and any work place, so we can make pouches of our food particles which are in aqueous form and they can be carried with our patiend and at their work place they can add hot water in that small particles type of food which is carried by them and the light and healthy diet is ready to take.

As we all know now a day most of the diseases are developed from our digestive system as a preventative.

Material + Methods

We are using Kruttam varg Dravya as our material and using hot water we are making our food is our method

Result: - We have made available light and healthy diet to everyone and everywhere

Conclusion: - We are making new approaches of using Kruttam varg in our day-to-day life as preventative by increasing their shelf life and making it easier to use to everyone by pouches of food

PROCEDURE FOR WRITING OFF THE COST OF ARTICLES PURCHASED
FROM NSS SCHEME

1. The Principal of the college to which NSS Units are sanctioned should order physical verification of the articles of dead stock and other equipment purchased out of the Govt grants, to be carried out annually, before the close of the financial year. An **annual certificate of physical verification** should be submitted to the University in the first week of April, in the following form:-

"The articles of dead -stock and other equipment purchased from NSS grant have been physical verified by me between 01 April to 31st March, with reference to the entries of purchases made in the stock register. These articles, except those mentioned in statements (A), (B) and (C) attached herewith, were found to be in the working order and were being used for the purpose they were intended for".

2. **Statement 'A'** to be attached to the certificate should include articles, which have become unserviceable due to their usage and fit to be condemned and removed from the stock register. These statements should be carefully scrutinized in the University office and necessary permission to write off these articles should be granted to the colleges concerned. The colleges concerned will be allowed to remove such articles from the stock register, sell them and credit the sale proceeds to the University NSS Fund. The credit of the sale proceeds of the unserviceable articles should be entered in the appropriate column of the register.

3. **Statement 'B'** to be appended to the certificate will include list of missing valuable articles which are found missing through fraud or negligence. An investigation in the matter will be ordered and action will be taken thereon. As the cost of all missing articles will have to be recovered from the persons responsible, the College may appoint an inquiry officer to (a) investigate into the matter, (b) assess the damage or loss and (c) determine the persons from whom it needs to be recovered. A register should be maintained for keeping an up-to-date record of the recovery of the cost of the articles reported to be missing/deficient.

4. The principal of the college is authorized, after necessary investigation, to write off the missing and unserviceable articles costing less than Rs. 100/-, by sending necessary report of investigation simultaneously to the University. The information of such articles should be given in **Statement 'C'**.
